

Please do not change the NJ Do NOT CALL LIST. I am tired of receiving calls from organizations and agencies that I do not wish to speak with. If I need gutters, magazines, insurance, a free credit report etc. I know where to go and whom to contact. I already make donations to several well known charities. I carefully determine if they are using the funds that I contribute for the charity or for fund raising. Often these callers on behalf of so called charities, don't even know how much the charity gets. When I checked it was 12%. I don't want calls from people I do not know. I think the laws about DO NOT CALL lists should be stricter. Why do the callers have more rights than I do? Why shouldn't I be able to say who I will accept calls from?
